

Information Sheet on the HfMT Cologne Babysitting Pool

General Information:

The equal opportunities team at HfMT Cologne offers a babysitting pool to act as an intermediary between parents and student babysitters.

The offer is intended to meet the childcare needs of all university members outside regular childcare hours, e.g. for important appointments, examinations or at times when public facilities in particular are already closed.

If you are interested in a babysitter, please contact us by e-mail with the desired times and other necessary information (age of the children, place of residence, desired services, etc.).

Processing:

The exact organization (location, time period, etc.) as well as compensation for childcare are handled exclusively between the parents and the selected babysitter. The Hochschule merely acts as an intermediary.

Notice:

The equal opportunities team recommends that parents who would like to hire a childcare worker via the babysitter pool register with the Minijob Center and submit an extended police clearance certificate.

Admission to the pool:

To be included in our pool, students can contact us by email at Babysitter@hfmt-koeln.de with a CV. After an introductory interview, the future babysitters will be given the opportunity to acquire a babysitting license (e.g. from Caritas). After successfully completing the course, students can be added to the babysitting pool and are available for placement from this point on.
